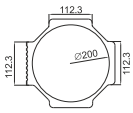
Super**Solar**.RGBW V.3

SuperSolar RGBW V.3 follows the huge success of the first and second generations, with an upgraded LED, with more efficiency and 30% higher brightness.

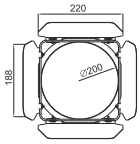
Maintaining the smooth and accurate 8°-40° electronic zoom system and the IP65 grade, this new SuperSolar is even more versatile and suitable for a large variaty of applications.

SPECIFICATIONS

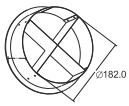
LED Qty.	14x 20W multichip RGBW LED's
drive current and max. power	700mA-1000mA / 235W
voltage	100~240 VAC, 50/60Hz
protocol	DMX512, RDM
control personality	Tour (12C) / Arc.1 (3C) / Ar1.D (4C) / Arc.2 (4C) / Ar2.D (5C) / Ar2.S (6C) / HSV (3C) / TR16 (17C) / Ar2.Z (7C) / Full (25C)
display	on board control
beam angle	8°-40° electronic zoom
strobe and dimmer	0-20Hz / 0-100% (16 bits)
connections	DMX in/out, power in/out
dimensions and weight	330x283x236mm, 8,6kg
casing and color	die-cast aluminum, black
cooling	direct convection
environment	-20°C to 45°C | IP65
certification	CE, MET

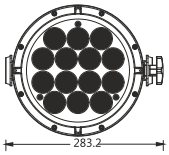


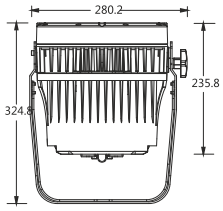
filter holder
(not included)

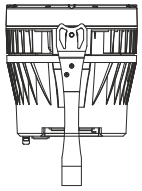


barndoors
(not included)









short hat
(not included)
